FROM

V. R. THYAGARAJAIYAR, Esq., M.A.,

CENSUS SUPERINTENDENT IN MYSORE,

BANGALORE.

The Secretary to the Government of His Highness the Maharaja
of Mysore in the General Department, Bangalore.

Subject.

Number of copies of the Census Report and Imperial
Tables volumes required to be printed.

SIR,

I have the honour to address Government regarding the number of copies of the Census Report and Tables (Parts I and II) required to be printed at the present Census.

2. The Imperial Census Tables I to VI are in the Press and Table VII is getting ready for being set in type. The remaining Tables are in course of preparation and will be sent to Press as they get ready. With a view to release the type now locked up in the first six tables and to afford all possible facilities to the Superintendent Government Printing to proceed promptly with the printing of the Tables now; and the Report portion later on, I propose to get the Tables finally printed off as each gets ready and is passed after final scrutiny.

3. To enable me to do this it is necessary to know beforehand the exact number of copies of both the Report and the Tables volumes that might be required for distribution both within as well as outside the State. In 1911, about 1000 copies each of the Tables and

GEN & REV. DEC

29 NOV 1921

CHIEF SECRETARY

III
29 NOV 1921MILITARY AND
MISCELLANEOUS

and Report volumes were printed and distributed as indicated in column 3 of the accompanying statement. Of these, about 423 were intended mainly to meet the requirements of the Census Commissioner. This time the Census Commissioner for India intimates in his letter No. 953 dated 18th October 1921 that 635 copies of the Report and 629 of the Tables volumes would be required for distribution and these together with the number of copies for local and outside distribution calculated on the basis of 1911 list would come to about 1,200 copies.

4. With a view to keep down the Census expenditure as low as possible and to limit the number of copies of both the Report and Tables volumes to 1000 as in 1911, I propose to distribute copies this time - as indicated in column 4 of the enclosed statement, the supply being cut down in the case of some of the major offices and being altogether omitted in the case of comparatively minor offices such as those of Revenue Sub Division Officers, District Treasury Officers, District Inspectors of Schools etc., as copies for purposes of reference could be easily had by these offices either in the District or Taluk offices.

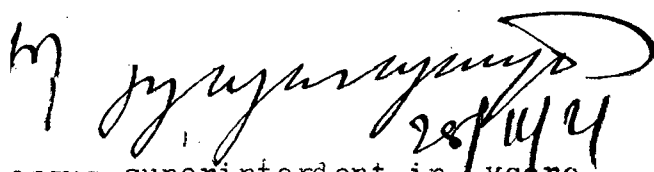

5. As regards the get up, binding, etc., of these volumes, they will be regulated by the instructions of the Census Commissioner and will practically be on the model of 1911 volumes. Their sale price to the public will be fixed in due course in consultation with the Superintendent, Government Printing, and intimated to Government later on - for sanction.

6. I now request the early sanction of Government to the above proposal regarding the number of copies of Report and Tables (Parts I and II) to be printed in order to enable me to give final strike order to the Tables now in the Press.

I have the honour to be,

Sir.

Your most obedient servant,

Census Superintendent in Mysore.
